OLD BUSINESS

President Crawford reviewed the EADS write up from last meeting regarding what the Borough would need to do to have their own water source for Vice-President Long. He confirmed for her that nothing was approved at the last meeting. The information is about what the project would look like. If combined with the meter project the EADS group expressed the Borough would have a pretty good shot at getting money. Next step is to look for funding.

Public Works Streets/Properties
President Crawford

Flags and military signs will be going up soon. No major incidents. High flow at the plant with all the heavy rain, but the plant kept going just fine.

Recreation Board
President Crawford

Pictures received from public works of the door kicked in at the Merrick Street concession stand and the repairs made were passed around. President Crawford added that the Rec Board is not taking care of the property and if it keeps up and they don't start taking care of the property better, the Borough may have to lock the doors and tell them they can't use it. Vice-President Long questioned if the Borough was charging the Rec Board for repairs. Not known if it had been done in the past, she suggested that maybe that would help get them to start keeping an eye on it.
