CORRESPONDENCE

President Crawford reviewed the correspondence received from Eric Mosbacher, an Aquatic Biologist with the DEP Vector Management Program. From May through October, he will be setting mosquito traps throughout the county to monitor mosquito-borne diseases and responding to complaints from county residents. A sample standing water ordinance was included. No action was taken.

OLD BUSINESS

Oil Creek Township
 Sewer Agreement

President Crawford reported that the Borough has not heard anything back from the Township regarding the April 24th payment offer sent to the Township. The thought is that the delay may be from not having a meeting since the offer was sent. He is looking forward to hearing something back from them maybe tomorrow or later this week.

President Crawford reported we are still waiting to hear back from the well driller. There was a short discussion regarding where the wells may be drilled as well as potential cost savings for the Dunham Road location.
